

by Lisa Alexander

The spirit of [giving](#) that supports non-profit health care organizations is strong. At Cox, this tradition of support is nearly 100 years old and at the cornerstone of our existence.

On Thanksgiving Day 1906 Ellen Burge donated her frame duplex on Jefferson Avenue in Springfield to be used as a hospital, and Burge Deaconess Hospital was formed.

Philanthropy for life

When the hospital faced financial collapse in the years following the Depression, Springfield businessman Lester E. Cox stepped in to lead a series of fund-raising campaigns and donate his own time and money to keep the hospital solvent.

Today, the need for financial support remains strong. Non-profit health systems are required to turn all proceeds back into the organization to pay expenses. This, combined with reduced Medicaid reimbursements and the

Balanced Budget Act, often leaves little for new programs, services or technology. But thanks to charitable gifts, new opportunities have been provided for our patients' care.

The Patient Advocacy Program at [Hulston Cancer Center](#) is one such example. The program, fully supported by donations to

Lester E. Cox

Burge Deaconess Hospital

the Glouser Oncology Fund, gives newly diagnosed cancer patients an immediate contact person who can help them find answers to financial questions, emotional issues, support services and additional information on their disease. The value of this program is described this way by one cancer patient:

“Without the patient advocate I would have been lost in my despair over being diagnosed with cancer. The advocate helped me stay focused on what I needed to get well again.”

For those diagnosed with diabetes, [Cox Diabetes Center](#) patient education grants are available. Donations to this program ensure those who can't afford disease management education receive it free, helping reduce the number of patients who develop complications due to a lack of knowledge.

Last year more than 500 area seniors received free health screenings thanks to donations. Aileen Spreet was one of them. Her screening found high blood pressure that needed immediate treatment. “Thanks to these free screenings, I have a greater chance of enjoying life and my grandchildren for a long time to come,” she says.

The Good Samaritan Fund was established nearly 30 years ago to assist Cox Health Systems patients who are severely underinsured or do not hold private insurance. By assisting with their hospital bills, the Good Samaritan Fund helps families get back on their feet. Cox is fortunate to have community members contributing to expand this fund to empower individuals on the road to recovery.

Helping families get off to a healthy start is the role of the Bethlehem Fund. Donations help cover the expense of prenatal care for low-income women with extraordinary health care needs and no financial resources. Services include home glucose testing supplies for diabetic mothers, childbirth education classes, assistance with transportation, laboratory tests and support services. All of these services help improve the chances of having a healthy baby.

Cox has always been dedicated to children of the Ozarks – not only when they are sick or injured, but also as they make choices that affect their health and safety for years to come. A [Children's Miracle Network](#) hospital since 1986, Cox uses CMN funds to offer financial assistance to families of children with serious illness or injuries, to purchase medical equipment enhancing the quality of care for hospitalized children, and to provide health and safety education programs for kids throughout the Ozarks.

Today your gift can be directed to any area of the hospital thanks to the existence of the [Cox Healthcare Foundation](#). The Foundation accepts your generosity and works with donors to match their gift to the areas of greatest need. All gifts are fully tax deductible and can be made as a part of your estate, as gifts of cash, stocks or even property. Gifts of all sizes are welcome and have the ability to give another person the chance to enjoy one of life's greatest gifts ... good health. If you would like to direct your personal philanthropy to life, please call the Cox Healthcare Foundation at 269-7109. ❖

Lisa Alexander is the president of Cox Healthcare Foundation.
